Town of Middleton Operating Reserve Fund Policy

Effective Date:

Approval by Council Resolution:

Statement

1. Planning today and saving incrementally for unexpected future events will help mitigate the financial impact of major, nonrecurring or unforeseen expenditures on the Town's annual operating budget, as well as take advantage of unexpected opportunities to leverage external funding programs.
2. The Town of Middleton is committed to establishing and maintaining an Operating Reserve Fund. The level of Operating Reserve Fund will be at least 10 per cent of regular general fund operating revenues.

Objectives

1. The purpose of maintaining adequate levels in the Operating Reserve Fund is to mitigate current and future risks and to ensure stable tax rates. Operating reserves are a significant consideration in long-term financial planning and management.
2. In addition, Operating Reserve Funds will provide the Town with a budgetary option that can help mitigate the need to cut services or to raise taxes.

Principles

1. The minimum target for the operating reserve will be approximately 10% of the Town's operating revenues.
2. All operating surpluses will be transferred to the Operating Reserve Fund.
3. Any additional reserves created by the Town will have their purpose clearly defined in a Business Case. The Business Case must also include the source and application of funds, the expected time line and any appropriate maximum amount, and projected annual contributions, withdrawals, and balances.
4. All reserve fund transactions should be transparent to the public. Amounts to be placed in the Operating Reserve Fund should be included in the annual budget.
5. The Operating Reserve Fund will be invested at a bank that the Town does business with.
6. It is intended that Council can revisit this policy in the future to amend the minimum balances as required.

Uses

1. The operating reserve may be used to smooth significant fluctuations in operating expenditures and/or revenue loss which cannot be anticipated and are beyond the control of the organization. Council can use the fund for both operating and capital purposes.
2. Council may apply funds from the Operating Reserve Fund in the normal course of operations, but maintain the minimum approved balance, as follows:
 - a. Applied in the Annual Draft Operating Budget
 - b. Applied during Operating Budget Deliberations
 - c. Applied to other funds as part of budget deliberations - Capital, Area Rated, Water Utilities
3. Council may apply funds from the Operating Reserve Fund which lowers the fund balance below the minimum approved balance, in an emergency situation, such as the following:
 - a. A protective services emergency, such as a flood condition, snow situation etc.
 - b. A required property purchase under an agreement.
 - c. A transfer of service/costs to the Town that could not be reasonably budgeted or foreseen.
 - d. A required payment under existing legislation that could not be foreseen, such as pension funding liability.
 - e. An emergency requiring repairs to a Town asset or to an asset supported by the Town.
 - f. A major revenue shortfall that could not be predicted.
4. The assumption under these situations is that there is no other funding source available, or other sources are ruled out. This also assumes that a review of the existing budget to take cost cutting measures in other areas will not have sufficient impact to mitigate the costs of an emergency situation.
5. In order to bring the Operating Reserve Fund back to the minimum balance, the amount of the shortfall is to be included in the draft budget for the following fiscal year. During budget deliberations, Council can approve, amend or develop a phase in approach to balance the Reserve over a number of fiscal periods.

Application

1. This policy applies to the Operating Reserve Fund of the Town of Middleton.

Town of Middleton Debt Management Policy

Effective Date:

Approval by Council Resolution:

Statement

1. Municipalities in Nova Scotia are restricted from running operating deficits. However, they may incur debt for capital purposes provided they have statutory authority.
2. The Town of Middleton recognizes that the foundation of any well-managed debt program is a comprehensive Debt Management Policy. This document provides guidelines for the Town to manage its debt program within available resources in three sections: Incurring Debt, Managing Outstanding Debt, and the Timing and Purpose of Debt.

Policy Objectives

The objectives of the Debt Management Policy are to:

- a. Ensure adherence to statutory requirements
- b. Enhance long-term financial flexibility and sustainability
- c. Minimize the long-term cost of borrowing
- d. Ensure the term of capital financing is no longer than the useful life of the related asset
- e. Ensure consistency and continuity in long-term debt decision making

Policy Principles

3. Incurring Debt
 - a. The Town of Middleton has many competing spending priorities for the amount of revenues collected each year. The Town's capacity to incur debt is directly related to its ability to service the payments required on the debt. These include both annual interest and principal payments. Furthermore, the Town's ability to service the payments required is directly linked to the ability of the Town to raise sufficient funds from either taxes or fees.
 - b. The Town incurs debt for two main purposes related to capital expenditures: tax-supported debt which is for capital projects that will be serviced from the tax-supported operating budget and self-supported debt which is for capital

projects that will be serviced from revenues from the Town's utility operations (water utility) and other revenue generating capital projects (e.g., administrative building tenants, debt incurred on behalf of fire departments).

- c. This policy shall be reviewed in three years.
- d. Before changes to this policy can be made a full review of the Town of Middleton's finances must be presented to Council.

4. Managing outstanding debt

- a) The Town's long term debt is owed to the Municipal Finance Corporation (MFC). When MFC issues debentures to the Department of Finance or capital markets, the Corporation is locked into the same maturity schedule, including principal and interest payments, as the assets it holds from clients. As a result MFC does not allow for the early redemption of debentures.
- b) The Town of Middleton will continue to service its outstanding debt according to the schedules agreed upon with the MFC at the time the debt was incurred.

5. Timing & Purpose of Debt

- a) The Town of Middleton will not incur additional long-term debt except when the capital project:
 - i. maintains current service levels affecting public health, safety or welfare;
 - ii. is a legal or regulatory requirement;
 - iii. is no net cost to the municipality;
 - iv. alleviates an emergency service disruption, and;
 - v. when the implication of deferring the project is more expensive than the project itself.

Application

- 6. This policy applies to all long-term capital borrowing of the Town of Middleton.

REQUEST FOR DECISION
Internet and Mobile Device Acceptable Use
#011-2015

Date: 16 April 2015	Subject: Internet and Mobile Device Acceptable Use
Proposal Attached: Yes	Submitted by: Rachel Turner, Chief Administrative Officer

Proposal:	That Committee of the Whole recommend to Council the approval of the Internet and Mobile Device Acceptable Use Policy.
Background:	In the past year, a number of questions have been brought forward around the acceptable use of Town-owned devices, financial charges, and how those devices are dealt with when there are outgoing elected and appointed officials. At the April Council meeting, staff were instructed to bring back a policy that provided clear and defined parameters on how these issues will be dealt with on a go-forward basis.
Benefits:	Issues around accountability, transparency, and responsibility when it comes to using the Town of Middleton's IT network and systems are clearly defined for all users. It provides guidelines for staff dealing with implementing these systems and also ensures that devices that are provided to users are truly required. The issue of privacy and what is public information should be understood by all users of the Town's electronic network.
Disadvantages:	<p>This may require a change in practice due to increased awareness of responsibility and privacy issues.</p> <p>The methods of conducting business in today's society has a general trend of more and more staff and elected officials being plugged in and connected to technology on an almost 24-hour basis. If these are the expectations of any organization, there are costs associated with that connectivity and a balance between the need and the want to be connected.</p> <p>Having a work-related cellular phone is also classified as a taxable benefit by CRA, and the Town should be following those rules set by CRA for the affected staff and elected officials who have been provided cellular phones for work related purposes.</p>

	This will impact some employees, but the laws set by CRA must be followed so that the Town is in compliance should it ever be audited by CRA.

CAO's Review/ Comments:	By implementing consistent and clear parameters around the acceptable use of the Town's network and systems, end users are provided with the information required to conduct themselves appropriately and within the expectations of the Town of Middleton.

Legacy 2017 Inter-municipal Agreement
#011-2015

Date: 16 April 2015	Subject: Legacy 2017 Inter-municipal Agreement
Proposal Attached: Yes	Submitted by: Rachel Turner, Chief Administrative Officer

Proposal:	That Committee of the Whole recommend to Council the approval, in principle, of the Inter-municipal Service Agreement for the 2017 Legacy Initiative as presented.
Background:	<p>Over the last 8-10 months, the Town of Middleton has been involved in a developing project that has been termed the Legacy 2017 Initiative, which was initially brought into discussion by MP Greg Kerr. As a result, a broad and ever-growing committee has been working towards the organization and integration of the communities and businesses, as well as First Nations, in Annapolis, Digby and Clare to find a way to build a lasting legacy that encourages, supports and promotes Canada's 150th anniversary, and recognize the Annapolis Basin region as the birthplace of what has now become Canada.</p> <p>The broad intent is to find the common thread that winds through the various communities and geographic areas of the above-noted district that link and support each other in telling the tale of our history and how this area came to be the birthplace of Canada.</p> <p>At a meeting held in February 2015, the Committee was presented with and agreed to the idea of forming an inter-municipal service agreement, pursuant to Section 60 and 61 of the <i>Municipal Government Act</i>, to better coordinate this initiative.</p> <p>It has been proposed that a budget for this Board be developed at no more than \$50,000, with the funding formula for participating parties based on the Valley Waste funding formula. The schedule has not yet been determined, and the agreement has yet to be reviewed by a solicitor.</p> <p>Included is a recent press release that outlines some of the support and publicity around this project, as both the Federal and</p>

	Provincial Governments have been apprised of and support what is happening.
Benefits:	Participating in a larger, regional approach that is intended to bring higher awareness both nationally and internationally, and develop the region as a destination for tourists and residents alike, to learn more about our history, culture, and heritage, has the potential to improve the tourism traffic through the Town and within the region. This could have a tremendously positive impact on economic development and stability for our commercial entities.
Disadvantages:	There will be a financial cost associated with this that has yet to be determined.
Options:	
Required Resources:	Staff time through involvement in the Legacy Committee, as well as funding to see the project through over the next two or three fiscal years, beginning in 2015/16.
Source of Funding:	General Operating Budget.
Sustainability Implications: (Environmental, Social, Economic and Cultural)	This initiative has the potential to positively impact the community on economic, cultural, and social levels through increased tourism, economic development, and awareness of this region's cultural heritage in the development of Canada as a nation.
Staff Comments/ Recommendations:	
CAO's Review/ Comments:	There is support from all levels of government in the development of this project. By strengthening the region and promoting it within the country and internationally, we have an opportunity to tap into a tourism market that has largely been underutilized.

Province Offers Support for 2017 Legacy Planning

April 10, 2015

(ANNAPOLIS ROYAL, NS) Momentum continues to grow in southwestern Nova Scotia to build a regional legacy strategy to mark Canada's 150th birthday.

The provincial government underlined its support at a recent meeting in Annapolis Royal when Kelliann Dean, the Deputy Minister for the Nova Scotia Department of Communities, Culture and Heritage (NSCCH) met with West Nova Member of Parliament Greg Kerr and Annapolis Municipality Chief Administrative Officer John Ferguson.

The meeting was arranged by Kerr as part of his ongoing effort to encourage community preparedness and collaboration in benefiting from the federal government's plan to commemorate and support significant heritage milestones of a broad national perspective through the "Road to 2017" plan.

The meeting included a tour of Fort Anne and a viewing of the Nova Scotia Charter document.

Kerr welcomed the provincial backing and said it was indicative of a positive spirit of government cooperation.

"At an earlier meeting Premier McNeil indicated his wholehearted support for such a collaborative regional approach and the discussion with the Deputy Minister, and a senior member of her staff underlined the fact that he remains fully committed to taking advantage of this opportunity." Kerr reported.

Following the meeting and tour Deputy Minister Dean said she was impressed with the level of planning and teamwork; and reiterated the provincial government's commitment of support for the regional legacy 2017 agenda.

Kerr once again said that the Canada 2017 is an opportunity that can't be ignored.

"This may be a national initiative but the Premier, the provincial government, and the area's municipal units all realize that we have to work together to develop a plan that will effectively recognize and promote our distinguished historical legacy", he maintained.

In February six area municipal units announced agreement to develop a regional heritage and cultural funding strategy, and that their respective municipal units would entertain a draft inter-municipal agreement to identify and pursue specific legacy initiatives. Several more area municipalities have recently indicated strong interest in participating in the agreement.

The agreement would allow for a corporation or not-for-profit organization to be created, giving more flexibility to the municipal units.

A regional Legacy Committee has been formed and is chaired by Municipality of Annapolis Chief Administrative Officer (CAO) John Ferguson, who also welcomed the involvement of the Province.

“The fact that the provincial government saw fit to send the Deputy Minister and a senior staff member from the Department of Communities, Culture and Heritage to meet with us and to offer support is a definite indication that this project is getting top level attention”, Ferguson pointed out.

The CAO commended Kerr’s leadership on this project and said that the level of communication and cooperation between the area MP and the Premier, who is also the MLA for Annapolis, has been instrumental in moving the planning forward and that he anticipated the municipal units would follow with equally dedicated participation.

“The support from our region’s Mayors, Wardens and administration has been tremendous,” Ferguson said, adding “This regional relationship continues to build not only opportunity that will attract people to all our communities, but raise our historical profile nationally and internationally. “

Both Kerr and Ferguson suggested that the next steps would include the formalization of the shared municipal agreement and development of a comprehensive proposal.

April 27, 2015

I would like to thank the Canada Legacy 2017 Committee for your ongoing work and keeping me apprised of your progress communicated through your Chair John Ferguson. I understand you are making great progress in forming an inter-municipal relationship that will pursue regional opportunities that are presented by the approaching 150th Birthday of Canada in 2017.

I know you can achieve your goal that will see a world class documentary produced based on our rich heritage from Argyle to Grand Pré and the many communities in between.

This initiative will be a tribute to the tremendous history in our region of Canada. I support the belief that it is the incubator that shaped Canada. This includes the Mi'kmaq welcoming Samuel de Champlain and establishing the first European settlement north of Florida; Acadian settlement and expulsion; the Black community and 11 wars that lead to the impetus to build Fort Anne and the provincial Charter which gave Nova Scotia its name. Further, Fort Anne will celebrate its 100th Birthday in 2017 as the oldest National Historic Site in the Parks Canada system.

The legacy this shared history provides is so important. Many Canadians are not aware of this prequel to Canada. However, with your continued commitment this initiative has the potential to be an important economic opportunity, attracting visitors from across Canada and beyond.

It is up to us to tell this story and I remain committed to help.

Sincerely,

Greg Kerr, M.P.

REQUEST FOR DECISION
Valley REN Inter-Municipal Agreement
#013-2015

Date: 29 April 2015	Subject: Valley REN Inter-Municipal Agreement
Proposal Attached: Yes	Submitted by: Rachel Turner, Chief Administrative Officer

Proposal:	That Council approve the requested amendments to sections 7 and 10 of the Valley REN Inter-Municipal Agreement and the revised funding formula, as presented.
Background:	<p>After the first year of existence, the Valley REN Inter-Municipal Agreement requires housekeeping amendments to the required quorum for the Board of Directors and the Liaison and Oversight Committee. The quorum amendments, specifically sections 7 and 10 in the Agreement, clarify what quorum consists of in order for business to be transacted at the respective meetings.</p> <p>The Board of Directors was initially at 8 members, but the agreement has the flexibility to have between eight and twelve members. The wording change allows for that flexibility without having to change it with each changing Board of Directors.</p> <p>Additionally, with the elimination of the provincial ERDT Department, staff participating from the Province is now coming from the Department of Municipal Affairs. As a result, quorum at the L&O Committee meetings must also include a provincial representative.</p> <p>The Town of Berwick gave notice last year at this time that it required the funding formula to be revised to better reflect ability to pay by the municipal partners. The L&O Committee tasked the CAO's to develop options, and the attached breakdown for funding was approved by the L&O Committee. It is calculated with a base charge of \$7,500 for each partner, and the remaining amount is based on 50% Uniform Assessment and 50% Population for each unit. This funding formula was discussed previously with Middleton Town Council, with agreement in principle. However, the Valley REN Board of Directors requires formal approval by each of the municipal partners.</p>

Benefits:	Transparency and consistency.
Disadvantages:	None foreseen.
Options:	
Required Resources:	
Source of Funding:	General Operating Budget.
Sustainability Implications: (Environmental, Social, Economic and Cultural)	
Staff Comments/ Recommendations:	
CAO's Review/ Comments:	These are housekeeping amendments to ensure clarity and provide consistency in the operation of the Valley REN, as well as to establish a relevant and defensible funding formula for current and potential future partners. The revised funding formula also slightly lowers the Town's financial commitment to the REN.
