

#### COMMITTEE OF THE WHOLE Town Hall – Council Chambers Monday, March 6, 2017 7:00 pm

#### <u>AGENDA</u>

- 1. Call to Order
- 2. Approval of the Agenda
- 3. Presentation
  - 3.1. Annapolis County Ground Search and Rescue
  - 3.2. Valley Waste-Resource Management Mike Coyle, Jeff Martin & Andrew Garrett
- 4. Approval of the Minutes
- 5. Action Items
  - 5.1 Valley Waste-Resource Management: Draft Operating and Capital Budget 2017-18
  - 5.2 Approval of 1/2 of Operating Budget
- 6. Information/Discussion Items
  - 6.1. Management Reports
  - 6.2. Accounting Activities Report February 2017
- 7. Anything by Members
- 8. Adjournment

# Valley Region Solid Waste-Resource Management Authority Draft Operating and Capital Budgets 2017-2018

Prepared for Presentation to VWRM Authority & Partner Municipal Councils Draft Budget Date: October 13, 2016 Presentation Date: January 18, 2017

### The Big Picture

- 3.16% **increase** over 2016-2017 partner share requirement levels assuming the recently received funds of \$100,000 from Divert NS is applied as per the Authorities policy on surplus/deficit allocations
- Returns a **surplus** estimated at approximately \$292,687 to partners based on 2016-2017 activity
- O Maintains Authority's current level of programs and services and addresses some issues raised as the result of the recently completed external Organizational, Services and Facilities and Salary reviews
- Presentation is designed to touch on the highlights please feel free to ask questions at any time
- Circulated budget package includes a full detailed explanation document as well as Operating Budget and Capital Budget Spreadsheets

# Focusing on the Details-Capital Budget

2	017-2018 Capital Budge	et
Item	Value	Payment Method
Replace 2009 Ford F250 Pick Up Truck	38,000	Financed 5 years
Plow for 2009 Pick Up replacement	8,000	Draw from operating
Replace 2011 Ford F250 Pick-up	38,000	Financed 5 years
Plow for 2011 Pick Up replacement	8,000	Draw from operating

# Focusing on the Details – Capital Budget

2	017-2018 Capital Budge	et
Item	Value	Payment Method
Replace 2008 Freightliner Roll-off	215,000	Financed 5 years
WMC Tipping floor repairs	60,000	Financed 10 years
Rear Compacting Unit	45,000	Financed 5 years
Replace Weigh Scale- Incoming WMC	78,000	Financed 10 years
EMC Organics Containment Structure	40,000	Financed 10 years

## Capital Budget Summary

2017-2018 Capital Budget Sum	mary
Total Financed Capital Budget	514,000
Total Draw From Revenue	16,000
Total Capital Budget	530,000

**Note**: The original loan for the administration office is up for renewal in 2017-2018 with an estimated balance of 1,499,800 to be based on a 10 year term to allow for optimal interest rates.

# **Capital Budget Details**

- The scale replacement at the WMC is the third of four scale replacements with the work at the EMC now complete. The fourth scale replacement to occur in 2018-2019
- The 2011 Ford F250 and the 2008 Freightliner Roll-Off will be declared surplus and sold. Revenue to be placed in operating equipment replacement reserve. The operating equipment reserve currently has a balance of \$49,558.72
- Rear Compacting Unit to increase efficiencies with hauling materials between facilities and to be more efficient at servicing seasonal bins. Original plan to purchase collection vehicle at \$180,000
- Organics Containment Structure will remove organics from the congested tipping floor, reduce contamination, improve health and safety and extend the life of the floor at the Eastern Management Centre

# The Authority's Long-Term Capital Plan

- The Authority's 10-year plus Capital Plan is reviewed in its entirety each year to ensure that acquisitions are in the best interest of the Authority and ultimately its Partners into to the future.
- All efforts made to avoid large spikes in required capital funding while at the same time ensuring the Authority has the equipment necessary to achieve operational efficiencies
- Once approved, Authority staff will start the process of securing financing through the Municipal Finance Corporation

## Financing Guarantees

## Explaining the Surplus

- We have an estimated **surplus** of **292,687** based on 6 months of activity and estimates for the remainder of the year.
- The surplus is returned to partners after the completion of the annual audit in keeping with policy.

### Key Drivers for the Surplus

### Surplus drivers:

- **Tipping fee revenues** projected increase \$153,000 over budgeted levels due to an increase in commercial activity. We did not implement the budgeted 1% increase in fees suggested in the 2016-2017 budget as the Services and Facilities review included a review of the fees.
- **O** Sale of materials \$28,000 due to higher than expected metal prices
- **O Fuel savings -** \$213,400 includes both Authority and contracted operations

# Explaining the Operating Budget for 2017-2018

- No anticipated changes in the current level of programs or services
- Sub-committee to be established to review recommendations of the recently completed Services and Facilities Review. Potential citizen engagement and educational initiatives
- VCFN funds have not yet been expended for the Authority's joining the VCFN – a full cost/benefits report to be brought before the Authority
- Modernization of VWRM website to allow for better mobile access and ease of use
- Implementation of recently completed Salary Review
- Contractual increases to Roadside Collection and Transportation to Landfill contracts
- Increases to Construction and Demolition Debris Processing

# Focusing on the Detail – Operating Budget

**O Utility Rates** (water, sewer, hydrant rentals, phones)

- no provision for any increase in any utility rates
- 5% increase in insurance fees is included

### **O** Gasoline and Diesel Fuel

• Budgeted valued included throughout the Authority's operations for both owned and operated equipment. Estimates based on historical activity

### **O** Commodity Tonnages

• Report includes full summary of both 2016-2017 projected and 2017-2018 budgeted commodity tonnages

# Focusing on the Detail – Operating Budget

### **O** Capital Reserve Fund

- 2017-2018 value set at \$177,156, a 10% increase over 2016-2017 levels in keeping with the Authority's Capital Reserve Policy
- The Authority continues to invest capital reserve funding with Scotia McLeod
- Current Value, as of October 31, 2016: \$882,903

### **Specific Revenue Assumptions**

### **O** Wind Turbine

- The wind turbine began generating the electricity on October 21, 2015
- Originally budgeted \$70,000 for 2016-2017; however, projections have been adjusted to \$40,000. Revenues generated through participation in COMFIT program. \$42,000 in revenues budgeted for 2017-2018 based on previous year wind velocities.
- The turbine data can be accessed at any time through a secure login <u>http://eric.endurancewindpower.com/10</u> 315910/#
- username: vwrm
- password: windturbine

### Major Contracts

• Landfill Disposal: \$71/tonne (contract expires in 2036)

- Transportation to landfill: \$18.34/tonne (contract expires in March 2020)
- Recycling Processing: \$125/tonne (contract expires in March 2018)
- Organics Processing:\$88.97/tonne (contract expires in June 2017)
- Roadside Collection: \$68.19 per serviced unit (contract expires in March, 2019)

## Your Cost Per Serviced Unit

# That's the Big Picture

# Questions???

Valley Region Solid Waste-Resource Management Authority Report to Partner Municipalities 2017-2018 Draft Operating and Capital Budget Draft Date: January 18, 2017

Please find the revised Authority Draft 2017-2018 Operating and Capital Budgets as discussed by the Authority at its January 18, 2017 meeting, to be further considered by the Authority at an upcoming Special Meeting. Of course, a great deal of time and effort has been expended in preparing, reviewing and finalizing the proposed budget for the upcoming fiscal year.

As you will see, the proposed budget now results in a 3.16% increase over 2016-2017 levels. The proposed budget also returns projected surplus funds estimated to be \$292,687 to our partners from current year operations. I am pleased to note that this draft budget maintains the current level of Authority approved programs and services and addresses some of the key issues raised during the recently completed Organizational, Service and Facility and Salary Reviews.

We trust that the following information will be of assistance in your deliberations of the Valley Region Solid Waste-Resource Management Authority's 2017-2018 Operating and Capital Budgets. If you have any questions or concerns or would like to arrange for a presentation to your Council, please do not hesitate to contact me.

#### Capital Budget for 2017-2018

A copy of the draft 2017-2018 Capital Budget is attached and includes a 10-year capital plan, financing summary and summary of total anticipated fiscal services financing requirements based on existing borrowings and proposed expenditures. In order to address capital requirements for the upcoming year, the following acquisitions are recommended:

Replace 2009 Ford F250 Pick Up 4X4 \$ 38,000 financed 5 years Plow for 2009 Ford F250 4X4 Replacement \$ 8,000 draw from operating \$ 38,000 Replace 2011 Ford F250 Pick Up 4X4 financed 5 years Plow for 2011 Ford F250 4X4 Replacement \$ 8,000 draw from operating Replace 2008 Freightliner Roll Off Truck \$ 215,000 financed 5 years Western Management Centre Tipping Floor Repairs \$ 60,000 financed 10 years **Rear Compacting Unit** \$ 45,000 financed 5 years Replace Weigh Scale – Incoming WMC \$ 78,000 financed 10 years \$ 40,000 Organics Containment Structure – EMC financed 10 years

#### **Summary of Capital Budget**

- Total Financed Capital Budget \$514,000
- Total Draw from Revenue Capital Budget \$ 16,000
- Total Capital Budget \$530,000

It should be noted that the replacement of the scale at the West Management Centre is the 3rd step in replacing the aging scale infrastructure in use at both Management Centres. This project was completed at the East Management Centre during the 2015-2016 and 2016-2017 fiscal years. Pricing has been estimated based on the submitted proposal from the successful proponent for this project.

The existing 2011 Ford F250 and 2008 Freightliner Roll-Off Trucks being replaced in the capital budget above will be declared surplus and disposed of in keeping with Policy. While difficult to estimate values at this point, all funds from the sale of these vehicles will be placed in an existing Reserve account for Operating Equipment Replacement which currently holds a balance of \$49,558.72. This balance does not include revenue from the sale of equipment declared surplus in 2016-2017 as those assets remain in use at the time of this report preparation. All funds in this account will be available to the Authority for future use to offset capital equipment acquisitions as per approval

The Authority also currently holds a Capital Replacement Reserve Account with holdings managed by the wealth investment firm of ScotiaMcLeod. The balance of this account as of October 31, 2016 is \$882,903. As can be seen in the 2017-2018 operating budget, an additional \$177,156, a 10% increase over 2016-2017 levels, has been earmarked to continue the growth of this fund in keeping with the Authority's established Capital Reserve policy. This fund is intended to offset costs for future generations as the Authority's infrastructure, particularly the Management Centre structures age.

It is important to note, that while a 10 year plus capital plan is included, that plan is reviewed in its entirety each year to ensure that acquisitions are in the ongoing best interest of the Authority. All efforts are made to avoid large spikes in required capital funding while at the same time ensuring that the Authority has the equipment in place that is needed to achieve operational efficiency.

The fiscal services financing budget line represents costs associated with borrowing for the projects approved for financing in 2017-2018 and previous years. It is important to note that the original loan in place with Municipal Finance Corporation for the administration office in the amount of \$2,022,400 will be due for a 5-year renewal in 2017-2018, with an estimated renewal balance of approximately \$1,499,800 which will be based on a 10 year rather than 5 year term to allow the Authority to realize optimal interest rates. The renewal of this loan is highlighted on the Summary of Anticipated Financing Charges spreadsheet that forms part of the Capital Budget and Plan. In 2018-2019, the Authority can anticipate the renewal of the loan

with the Municipal Finance Corporation for the Greencart Storage Building. The original amount for this loan was \$281,000 and it anticipated that \$206,060 will remain at time of renegotiation. Both of these projects are amortized over a 15 year period.

Below is a summary of partner capital financing requirements:

#### Summary of Capital Financing Requirements

Total Capital Budget	530,000
Draw From Revenue	16,000
Debt Financing Requirement	514,000

	Draft Percentages	
Financed Capital Requirements	2017-2018	
Municipality of Annapolis	20.85%	107,169
Municipality of Kings	58.13%	298,788
Town of Annapolis Royal	0.77%	3,958
Town of Berwick	2.70%	13,878
Community of Hantsport	1.33%	6,836
Town of Kentville	7.76%	39,886
Town of Middleton	1.95%	10,023
Town of Wolfville	6.51%	33,461
<b>Total Financed Capital Requirements</b>	100.00%	514,000

Upon approval the Authority will secure financing through the Municipal Finance Corporation. As is the case with the operating budget partner share percentages, adjustments will be made based on final uniform assessment figures, once available.

#### **General Assumptions Operating Budget**

#### 2016-2017 Operating Budget Surplus

- 2016-2017 Operating Budget Surplus is projected to be approximately \$292,687 at this time based on 6 months of actual activity and estimates for the remainder of the fiscal year.
- The key driving factors leading to the anticipated surplus at year end are:
  - o <mark>Revenues</mark>:
    - Tipping Fees projected at \$2,079,000 versus the budgeted value of \$1,926,000 for a difference of \$153,000
    - Sale of Materials a combined projection of \$74,300 versus the combined budgeted value of \$46,300 for a difference of \$28,000 in unanticipated revenue.

#### o Expenditures

- Fuel savings have been achieved throughout the Authority's operations during the current fiscal year. Savings include both the Authority's owned and operated equipment as well as adjustments for major contracts. Total projected savings of \$213,400.
- While the above are considered the key drivers contributing to the 2016-2017 year end surplus projection, a thorough variance analysis in all accounts throughout the Authority's operation result in the anticipated value of \$292,687.

The Authority is proud to have returned surplus funds to participating partners over the years in the total amount of \$1,853,339 as per the spreadsheet below.

The Authority has dedicated a great deal of time and effort into establishing a policy defining the best way to manage surpluses and deficits, ensuring that any net operational revenues are returned to partners based on their proportional shares.

In late December 2016, in response to pressure from the Regional Chairs, the Provincial Government directed Divert NS to forward additional "bridge" funding in the amount of \$100,000 to each of the 7 waste-resource management regions. As per Authority Policy and discussions during the January 18, 2017 meeting of the Authority, these funds have now been allocated as revenue to the 2017-2018 operating budget.

All returned funds are verified in the annual financial audit. While this is the practice for surpluses it is also important to note that if the Authority were to find itself in a deficit position at year end, invoices would be released to participating partners to cover the shortfall. All partners are encouraged to hold surpluses returned by the Authority for use in offsetting future increases or deficit positions.

#### Service Delivery:

- As indicated earlier, there are no anticipated changes in the current level of service provision incorporated in the 2017-2018 budget. The reinstatement of the Manager of Policy and Planning position during 2016-2017 has proven invaluable to the Authority's overall operations. This action was taken in keeping with the recommendation noted in the recently completed Organizational Review and current year's budget.
- The Authority has also recognized the value of considering the extension of 2 key contracts.
  - The first being the contract with the Municipality of the District of Chester for landfill services where extending the life of the Authority's contract for this service would have a significant impact on the current disposal fee associated with their closure costs. The current contract was scheduled for expiry in 2026; however a 10-year extension to this Agreement was put in place in October 2016.
  - The other contract being considered for extension is with NorthRidge Farms for Organics Processing. As the Province continues to consider regulatory amendments which could result in significant impact on costing for composting facilities, it is felt to be in the best interest of our municipal partners to extend this contract now slated for expiry in 2017. At present, representatives from NorthRidge Farms have agreed to hold current pricing as this process moves forward.
- Valley Community Fibre Network \$20,000 has been retained from the 2015-2016 budget for the Authority's connection to the Valley Community Fibre Network. While the Municipality of Kings remains supportive of the Authority's goal of having servers reside with them, the connection to the Valley Community Fibre Network project has been put on hold for the moment. While it is anticipated that the project will be considered in the future, it is also extremely important to note that all connection pricing and the overall business case for moving forward will require careful and cautious consideration to ensure that the project is in the best interest of the Authority's operations into the future. More information regarding the Valley Community Fibre Network can be found below.

#### Participating Municipal Partners:

- The Authority's current participating partners under the Intermunicipal Services Agreement are the Municipalities of Kings and Annapolis and the Towns of Annapolis Royal, Berwick, Kentville, Middleton and Wolfville.
- While the Town of Hantsport dissolved and became part of the Municipality of the District of West Hants effective July 1, 2015, the Authority continues to provide the same level of service previously provided to the Town. The draft budget being presented today includes the continuation of service to this community. Negotiations

will take place between the Authority and the Municipality of District of West Hants regarding the future provision of this service well in advance of collection contract renewal.

#### **Salaries**

- In keeping with the recommendation in the Organizational Review, a full Salary Review was completed during 2016-2017. The review encompassed a full examination of all positions under the Authority's umbrella resulting in the development of a salary scale for all positions representing market value at this time. Those values have been included in the 2017-2018 draft operating budget as well as a 1.03% CPI adjustment in keeping with the salary review findings. The salary scale that has been put in place is more comprehensive than the previous scale with levels set based on an annual increase when performance targets have been achieved. All positions were analyzed to determine where they should sit on the new scales based on the key skills of know-how, problem solving, accountability and working conditions. As the Authority is fortunate in having very little turn-over in staff throughout the operations, a majority of employees fall under the top of the 5-year scale for their respective position. While this is the case, it is critical to note that succession planning is key as many of the Authority's employees are quickly nearing retirement eligibility.
- The 2017-2018 draft budget also includes the introduction of an additional 1% in pension plan contributions by both the Authority and the employee moving the contribution value per pay from 6% to 7%. This is the first increase in pension plan contributions to be contemplated for many years and is being implemented as per the recommendation during the salary review.

#### Utility Rates (electrical, water, sewer, hydrant rentals, phones)

• No provision for any increase in utility rates. A 5% increase in insurance fees has been incorporated as per an estimate provided by the Authority's Insurance Agent.

#### **Gasoline and Diesel Fuel**

• Budgeting for gas and diesel fuel continues to be challenging due to the volatility in markets. Every effort has been made to attempt to estimate values for fuel throughout the budget.

Commodity	Tonnages:
-----------	-----------

		West: 6,335	West: 6,400
		Total: 21,568	Total: 21,650

#### **Specific Revenue Assumptions**

- Tipping Fees
  - There is no anticipated rate increase for tipping fees included in the draft budget. The 1% increase that had been planned for implementation during the current fiscal year was not brought forward as the tipping fee rates are an issue raised in the recommendations of the recently completed Service and Facility Review and will be further discussed by a soon to be named Review Committee.
- RRFB Diversion Credits
  - 2016-2017 Projection set at \$220,000 which is \$80,000 under budgeted levels which were set based on the best information provided by the RRFB at that time.
  - Budget for 2017-2018 set at \$275,000 based on best estimates available at this time.
- Wind Turbine
  - The Authority's wind turbine construction and commissioning wound up with the blades generating the first electricity on October 21, 2015, slightly ahead of schedule. While the 2016-2017 budget was developed based on an engineer's estimate of \$70,000.00 in revenue based on our participation in the COMFIT

Program, unfortunately, the Authority is not achieving this revenue target at this time. The reduction in revenues is likely due to uncharacteristically calm wind conditions during the spring and summer of 2016. Therefore the 2017-2018 budget has included the reduced value of \$42,000 in revenue under our continued participation in the COMFIT Program. While the actual revenue associated with the operation of the wind turbine has been reduced to reflect actual activity the educational benefit of having the operating turbine on site cannot be overstated.

#### Specific Expense Assumptions

**Residential Collection** 

- The Authority's curbside collection contract is one of the largest contractual expenditures that the authority makes on an annual basis. The current contract will expire March 31, 2019 and in keeping with the contract that is in place, pricing included in the 2017-2018 budget represents an approximate 2% increase over 2016-2017 levels. While final figures will be determined based on the release of construction and demolition permits within our partner municipalities, this budget has been developed based on the Authority providing collection for 40,002 serviced units.
- 2017-2018 budget based on a total cost of \$2,727,870.00
- 2017-2018 will be the 4th year of a 5 year contract with EFR Disposal Ltd. scheduled to expire March 31, 2019.
- The Authority's continuation of service provision to the community of Hantsport will be a key matter as we move toward the expiry of this contract.

Construction and Demolition Debris Processing and Transportation

- The management of construction and demolition debris is one of the key factors in the overall cost increase in the Authority's 2017-2018 budget. Some increase in activity is related to the closure of Construction and Demolition Debris Management site in close proximity to the Authority's operations. Another key factor is the change in the management of waste wood. The Authority has been sending ground wood product to Brooklyn Energy for alternate use there, but unfortunately the future of this disposal option is unclear. Funds have been included to cover all costs associated with the management of this material. For comparison purposes, the overall construction and demotion debris management section of the Authority's budget in 2016-2017 was set at \$110,150 while the 2017-2018 budget for this commodity has been set at \$197,700 representing an overall increase year over year of \$87,550. While discussions are underway with our wood processing contractor to secure alternate markets, it was felt to be in the best interest of the Authority to ensure that all associated costs can be covered during this transitional period.
- The Processing rate for 2017-2018 has been set at \$19.00 plus HST per tonne, the same rate that applied for the 2016-2017 fiscal year.

- The construction and demolition debris transportation rate for 2017-2018 is \$17.85 plus HST up from the 2016-2017 rate of \$17.51 plus HST in keeping with contractual requirements.
- 2017-2018 represents the 3<sup>rd</sup> year of a 5-year transportation contract expiring March 31, 2020, with Tri-County Waste Management.

**Recyclables Processing** 

• Rate for 2017-2018 remains at 2016-2017 level or \$125.00 plus HST per tonne.

Organics Processing

- Rate for 2017-2018 remains at 2016-2017 levels or \$88.97 per tonne plus HST based on a 4% contamination rate.
- The current contract with NorthRidge Farms for this service will expire as of June 30, 2017; however, as indicated earlier, the extension of this contract is now under consideration due in large part to the uncertainty around future regulatory requirements.

Residuals Disposal

- Rate for 2017-2018 set at \$71.00 per metric tonne including the Host Community Fee based on consultation with the Municipality of the District of Chester.
- There are no residual adjustment figures included in either the 2016-2017 projections or the 2017-2018 budget.
- As indicated earlier, this contract was extended for an additional 10 year period in October of 2016.

**Residuals Transportation** 

- Rate for 2016-2017 set at \$18.34 per tonne which is a .34 per tonne increase over 2015-2016 levels.
- 2016-2017 represents the 2<sup>nd</sup> year of the 5-year contract.

Communications and Enforcement

- Includes annual subscription to MyWaste App now accessed by 1,500 users proving to be a valuable education tool.
- The remainder of the budget reflects a status quo in services and staffing levels.
- The Last Re-Sort Reuse Centre continues to prove to be a huge success generating just under \$30,000 in revenue for the Authority annually moving closer and closer to a "break-even" level.
- Staff continue to brainstorm measures to raise awareness around the environmental value of the Authority's programs and services.

Information and Technology

- The 2017-2018 Information Technology budget has been set at \$40,065 representing a \$9,125 increase over 2016-2017 levels.
- \$7,500 of the proposed increase is for the complete refreshing of the Authority's website as recommended in the recently completed service and facility review. Upgrades to the website are required to bring the site to standards compatible with mobile phone use.
- The Authority's joining the Valley Community Fibre Network (VCFN) is discussed above. As a reminder, the potential benefits of joining include:
  - Allows Authority network to be managed by Municipality of the County of Kings through connection to the VCFN,
  - o Future savings in server equipment replacement,
  - o Future savings in associated Licenses and Maintenance Agreements,
  - Immediate access to IT expertise when server issues arise to minimize impact on all operations particularly at the scale houses,
  - Elimination of temperature controlled room for equipment at Valley Waste office,
  - More security for data no need for Authority staff to manage daily back-ups,
  - Future additional server capacity when and if required,
  - Opportunity to participate in collaborative projects at potentially reduced costs,
  - Opens door to new technologies.

I sincerely hope that the above information is of help as you consider the Valley Region Solid Waste-Resource Management Authority's Draft Operating and Capital Budgets for the 2017-2018 fiscal year. Please feel free to contact me if you have any questions or concerns or if you would like to arrange to have staff provide a draft budget presentation to your Council.

Respectfully submitted,

Michael V. Coyle Acting General Manager Valley Waste-Resource Management

Administration Facility	700,000
Total Capital Requirements	1,680,77
2012-2013 Projects Replace 2002 Freightliner Roll Off	162,50
Replace 2004 Chevrolet Silverado 4X4	29,00
Roll Off Containers Mechanical Repair/Greencart Storage/Reuse	12.20 279,00
HHW Asphalt Public Receiving Area - EMC Asphalt Paving and Landscaping	22,00
Total Capital Requirements	614,90
2013-2014 Projects	-
Replace 2006 Wheel Loader Replace 2008 Ford Ranger-moved to 2014-2015	230,000
Roll Off Containers Small Wind Turbine-removed	
Total Capital Requirements	230,00
2015-2016 Projects	
Replace 2009 Cat Wheel Loader Replace EMC Weigh Scale (Outgoing)	225,000
Site Signage Scalehouse Service Window-Outgoing East Centre	20,00
Small Wind Turbine	555,00
Total Capital Requirements	895,00
2016-2017 Projects Replace 2009 Ford F150 Pick-up 4X4	35,00
Power Liftgate for 2009 F 150 Pick-up replacement	4.00
Replace 2003 Freightliner Roll Off Truck Replace 2004 Chevrolet Silverado 4X4 with RTV	190,00 25,00
Replace 2007 Chevrolet Silverado 4X4 Replace 2008 Ford Ranger Extended Cab 4X4	35,00 35,00
Roll Off Containers	15,50
Replace Weigh Scale - Outgoing East Management Centre Brush for RTV	79,00
Fencing Adjustment West Management Centre Total Capital Requirements	15,00
2017-2018 Projects	
Replace 2009 Ford F250 4X4 Plow for 2009 Ford F250 4X4 Replacement	38,00 8,00
Replace 2011 Ford F250 4X4 Plow for 2011 Ford F250 4X4 Replacement	38,00
Replace 2008 Freightliner Roll Off Truck	215,00
Western Management Centre Tipping Floor Repairs Rear Compacting Unit	60,00 45,00
Replace Weigh Scale - Incoming WMC Organics Containment Structure - Eastern Management Centre	78,00
Total Capital Requirements	530,00
2018-2019 Projects	
Replace 2010 Ford F150 4X4 Replace 2011 Mazda Sport GX	36,00 25,00
Replace Tail Dump Trailer Replace Utility Trailer	15,00 5,00
Replace All Terrain Vehicle - RTV Replace 2013 Ford F150 Pick-Up Truck	26,00 36,00
Roll Off Containers	15,75
Replace Incoming Scales - WMC Replace Incoming Scale House Window - EMC	78,00 16,20
Dry Storage Building - WMC Total Capital Requirements	100,00
2019-2020 Projects	
Replace 2006 Caterpilar Wheel Loader	240,00
Roll Off Containters	
	45,000
Roll Off Containters Tipping Floor Repairs - EMC	45,00

2020-2021 Projects Replace 2013 Freightliner Roll Off Truck Roll Off Containers Minor Capital Total Capital Requirements

#### PUBLIC WORKS REPORT March 1, 2017

#### WATER MAINS, SEWER MAINS AND STORM DRAINS

- New water meter installations are underway. The new meters are all being installed with outside remotes, thus eliminating the need for Public Works employees to enter into homes to collect meter readings, making the process much faster and more efficient.
- Valve exercising and inspections are being performed by Public Works members.

#### **ROAD REPAIR**

- The road cut due to a water main break on Main Street in front of the Post Office was paved by Dexter Construction on February 22<sup>nd</sup>, 2017.
- The speed radar signs for Bridge Street and North Commercial Street have arrived and will be installed next week.
- Shouldering and pothole patching is being completed when necessary.

#### **GENERAL MAINTENANCE**

 Several mechanical issues and breakdowns that happened during the week of the two snow storms have been addressed and fixed either in house or by local businesses in town. All equipment is now back in working order.

#### **OCCUPATIONAL HEALTH & SAFETY**

- During a routine generator self test at the Sewage Treatment Plant, the transfer switch for the Genset exploded inside the electrical panel, sending sparks flying and short circuiting some wires. There were no injuries; however damage to the wiring, transfer switch and panel did occur. The manufacturer has been contacted and is working to provide an assessment and repair quote. The incident has been reported to the OH&S committee for further review.
- OH & S Meetings are taking place once a month; minutes will be posted on SharePoint.
- There are no other incidents or accidents to report at this time.

Shaun Thompson Foreman of Public Works

#### TOWN OF MIDDLETON DEPARTMENT OF RECREATION & COMMUNITY SERVICES JENNIFER COOLEN, DIRECTOR FEBRUARY 2017

#### SNOW WHAT?!

One good thing about having a week of snowstorms is that it provided a window of opportunity to make good use of our free snowshoe and ski loan program. Although the snow didn't last long with the warm temperatures, the community made good use of the program and between individual, family, and group loans, there were more than 50 people active in the snow with either skis or snowshoes this month.

Speaking of snow, on February 5<sup>th</sup> we hosted a community snowshoe around Lily Lake. We were very fortunate to have Nicole Peppard lead the ambitious group around the lake to the old ski hill. That is where the photo below was taken.

#### GET WITH THE PROGRAM

A new series of programs surfaced in the month of February. For the adults we are still offering Senior Fitness, Chair Yoga, Yoga, Boot Camp, and Core Cardio. The children and youth have active opportunities thorough free after school programming that is offered as a partnership between the Town, the Province, and in a couple of cases, Fitness Experience.

In addition to the new series of ongoing programs, we have also been working on programs to offer over the March Break. In conjunction with Braveheart First Aid, we will offer a babysitting program, we will sponsor free skates at the rink, and we will be offering a March Break Camp on the Monday through Thursday.

#### IT TAKES TIME

With national volunteer week happening April 23-29, the process of encouraging nominations, selecting provincial representatives, and planning the local ceremony held in Annapolis took some well-deserved time this month. We want to thank all of our many volunteers who give some much of their time and energy to better our community. This year's nominations were Krista Steele, Odessa Taylor, Philip Townsend, Debbie Wotton, Melissa Burbidge, and Bob and Pat Keith. Thank you to everyone who took the time to submit a nomination.

#### THE TANGLED WEB

Our new website is almost completely moved from the old server to the new server and in the very near future will undergo a facelift. This process will require cooperation from some staff and council and it is hoped to be completed by the end of March.

#### \$\$\$

The first draft of the budget is ready to be submitted to the Finance Director. We are still tidying up loose ends from this fiscal year and will continue to do so while still preparing and planning for the upcoming year.

#### WHAT ELSE ...

- Applying for a Walkability Grant to enhance The Walkie Talkies Program.
- Working on Employee Wellness Plan. Surveys are ready to be launched.
- Starting to plan for summer events and programs
- Valley Connect software training as Andy is assisting with this initiative
- Working on trails and open spaces maps
