

**SPECIAL COMMITTEE OF THE WHOLE  
Town Hall – Council Chambers  
Monday, April 24, 2017  
7:00 pm (Committee)  
7:45 pm (Public and Staff)**

**AGENDA**

1. Call to Order
2. In-Camera (personnel)
3. Capital Budget Discussions 2017-18
4. Adjournment

Office of the  
Chief Administrative Officer  
Rachel L. Turner  
Phone: (902) 825-3559  
Fax: (902) 825-6460

## Proposed Draft Capital Budget 2017-18

**Introduction:** An important component of the Town annual budget process is approval of the 2017-18 proposed Capital Budget, including the capital projects forecast for the coming five fiscal years. As is our practice, staff have continued to use the Debt Affordability Model for the Town as background to making decisions on those capital projects which could impact the future financial position of the Town. Staff are bringing the Capital Budget forward before the proposed Operating Budget, similar to the previous two years. This is to permit consideration and approval of the capital projects for the coming year earlier in the construction season, to take advantage of potential savings in planning, tendering and implementation of the 2017-18 capital work. This draft proposes Capital out of Revenue in the 2017-18 Operating Budget would be \$83,000 and has incorporated the capital items that Council has brought forward since the 2016 Municipal Election.

**Discussion:** The proposed Capital Budget is explained in the enclosed spreadsheets, and it includes projects that are required to maintain Town utilities, streets, sidewalks, facilities and equipment. There are also some new facilities and equipment proposed, most of which have been identified in previous five year capital plan reports for Council. Here is a list of some of the highlights in the proposed Budget:

- **Water:** Entering the third year of the approved rate study by the Nova Scotia Utility and Review Board, the water utility will be doing regular hydrant work this year, as well as a major repair to the reservoir and upgrades to the 101 Building with respect to the pressure release valves (PRV). This will positively impact water main breaks from too much pressure in the lines.
- **Streets:** The plan is to install overhead crossing lights at the Main/Marshall Street intersection to assist with school-aged children crossing to and from the elementary school. An inquiry has been received about possibly installing overhead lights at the crosswalk in front of the Kwik Way at Taylor Drive and Main Street, but has not been included in this budget. The last half of the decorative street light conversion along Commercial Street is also planned. The wiring is complete with the next stage to be changing the decorative poles. Many are in an unsafe condition and need to be removed.
- **Sidewalks:** repave 400 feet of sidewalk on east side of Bridge Street to Spring Garden Road.
- **Sanitary Sewers:** Lagoon ladder purchases will be made subsequent to the recommendations made in the Facility Assessment Study. Major projects include the replacement of 1100 feet of storm sewer from Marshall/King Street intersection into Rotary Park, including replacement of the concrete sidewalk. This would be done in consideration with events both at Rotary Park and the new school year starting in

September. Also at the south end of Rotary Park, part of the storm sewer line has collapsed within a property easement and needs to be repaired (421 Main Street). With the formal approval of a funding application through the Building Canada Fund, the biggest project for streets will be the engineering work on the rebuild and repave of a 720' section of Main Street and arteries, carried over from last current fiscal year. The Town has two more years to complete all the work within this project. There may be some discrepancy in the age of the main on Main Street, so preliminary camera work will be done to determine if this is in fact a section of infrastructure that needs replacement.

- **Land and Building:** Proposed projects for this coming year include phase III on the environmental site assessment at 146 Commercial Street which is required to be completed by the end of summer 2017; planning around the design and engineering phase of a new Fire Hall; re-shingle Town Hall; potential Highway 101 signage for the community, and improvements to the dock at Riverside Park.
- **Equipment:** the equipment replacement plan is following the ten-year planning cycle that has been developed by the previous Director of Public Works to ensure fleet maintenance and replacement, a new mower for the green space maintenance, as well two attachments for the trackless that will improve efficiency when doing snow removal. An initial quote for a sound system in Council Chambers has been received for consideration. The Fire Department is also replacing air filling station and bottles.

Any substantial changes to projects from year to year will certainly impact the Town's debt ratio based on how much funding will come from borrowing. To assist in those decisions, proposed changes can be entered into the debt affordability model, showing the total sources of funding and the debt ratio for this year, as well as a preliminary look to future years.

Respectfully submitted by the Management Team

<b>Debt Outstanding</b>																				
Current outstanding & forecasted debt		\$2,293,716		\$2,174,602		\$2,458,029		\$3,452,541		\$3,282,347		\$3,093,788		\$2,895,172		\$2,332,057		\$2,006,491		\$1,722,825
Estimated revised debt service ratio		11.47%		11.60%		11.01%		11.44%		15.80%		15.38%		15.29%		13.65%		12.02%		10.35%

\*\*\*Note:

- (1.) The amortization period & term may differ if project financed over a shorter time period (ie. 20 year amortization & "balloon" payment in year 10).
- (2.) The long-term borrowing calculation assumes a blended interest rate for the life of each fiscal year's borrowing.
