

October 2026

“ As the leaves change colour and the crisp autumn air settles in, we are reminded that every season brings its own beauty and opportunities. Fall is a wonderful time to slow down, appreciate the community around us, and enjoy the simple pleasures of life in Middleton. As we embrace this changing season, I encourage everyone to take a moment to enjoy all that autumn has to offer. ”

Mayor Gail Smith

MIDDLETON NEWS

New Reservoir Fully Operational

The new reservoir on Junction Rd. became fully operational in September, marking a significant investment in the community's water infrastructure and its ability to support future growth.

Middleton's water originates from the Town's well field and is pumped through the municipal water system to the reservoir. Water is chlorinated as part of the Town's standard water treatment process before being distributed through the system.

The new reservoir is now fully integrated into Middleton's municipal water system and the de-commissioning of the old reservoir is complete.
